Nicolas Mazzocchi

PhD in Computer Science

Curriculum vitae – updated on December 11, 2025

Last name	Mazzocchi
First names	Nicolas Adrien
Citizenship	French / EU
Language	French (native), English (professional), Slovak (A1)
Email	nicolas.mazzocchi @ stuba.sk
Homepage	**https://mazzocchi.github.io/**

Research Interests

About Formal verification relies on mathematical models to express precisely and analyze exhaustively the behaviors of systems. I focus on specification models with a good tradeoff between the expressiveness of system behaviors and the complexity of algorithms that ensure safety and robustness.

Keywords formal methods, model-checking, monitoring, logic, automata, games

Positions

7/2024 – now **Researcher**, *Slovak University of Technology (STU)*, Slovak Republic
Faculty of Electronic and Computer Science

1/2022 – 6/2024 **Postdoc**, *Institute of Science and Technology Austria (ISTA)*, Austria
Team of T. A. Henzinger

12/2020 – 12/2021 **Postdoc**, *IMDEA Software Institute*, Spain
Team of P. Ganty

Education

2016 – 2020 **PhD in Computer Science**, *Université libre de Bruxelles (ULB)*, Belgium
F.R.S.-FNRS FRIA Doctoral Grant
- 1 week International Winter School, HUJI, 2017
- 2 weeks International Summer School, Marktoberdorf, 2017

2014 – 2016 **Master in Computer Science**, *ENS Paris-Saclay (ENS Cachan)*, France
MPRI inter-institutional research-oriented master program
- 5 months at Université libre de Bruxelles, ERASMUS+ student mobility, 2016
- 3 months at RWTH Aachen University, ERASMUS+ student mobility, 2015

2011 – 2014 **Bachelor in Computer Science**, *Aix-Marseille University (AMU)*, France
- 1 month at École des Mines d'Alès & Incubator Innov'up, AMU internship funds, 2014
- 1 month at Laboratoire d'Informatique et Systèmes (LIS), AMU internship funds, 2013

Main Collaborations and Mobilities

ISTA, *team of T. A. Henzinger*, Austria
- regular short visits in 2024 – 2025

VUT Brno, *team of O. Lengál*, Czech Republic
- 3 short visits in 2024 – 2025

UMONS, *team of M. Randour*, Belgium
- 4 discontinuous weeks invited researcher mobility 2024 – 2025

I3S, *team of E. Lozes*, France
- 4 days invited researcher mobility 2025

Université Marie & Louis Pasteur, *team of I. Jecker*, France
- 1 week invited researcher mobility in 2024

University of Liverpool, *team of P. Totzke*, United Kingdom
- 1 month invited researcher mobility in 2023

IMDEA Software Institute, *team of P. Ganty*, Spain

University of Colorado Boulder USA, *team of S. Sankaranarayanan*, USA

Hebrew University of Jerusalem, *team of O. Kupferman*, Israel

ULB, *team of J.-F. Raskin and E. Filiot*, Belgium

Grants

2024 **VAIA**, *hosted by STU*, funded by the Slovak ministry of research and innovation
Project for **R3 Established Researcher** aiming at the creation of a new research team with a budget of 210212 euros. **Not granted due to lack of allocations.**

2024 **Staff mobility**, *hosted by VUT Brno*, funded by ERASMUS+
Collaboration with O. Lengál and L. Holík.

2016 **FRIA**, *hosted by ULB*, funded by F.R.S.-FNRS
Doctoral grant of 4 years.

Responsibilities

4/2024 – now STU examination committee member for Bachelor and Engineering study programs

2026 CONCUR'26 program committee member

2026 VMCAI'26 program committee member

2023 Viennese workshop on Verification, main organizer (35 participants, 28 speakers)

9/2022 – 6/2024 Organization of the team seminars at ISTA

9/2022 – 6/2024 Co-organization of the inter-team (ISTA, TU Wien) seminars at ISTA

5/2021 – 9/2021 Co-organization of the inter-team seminars at IMDEA

2019 RP'19 conference assitant organizer (80 participants, 34 speakers)

1/2017 – 9/2020 Organization of the team seminars at ULB

1/2017 – 9/2020 SVN Administrator of the research team Modelization and Verification at ULB

Software

Lead developer

2024 **QuAK**, *developed with N. E. Saraç (ISTA), M. Chalupa (ISTA)*
Quantitative automata library for safety-liveness monitoring, checker, and synthesizer. Available on **Zenodo** (peer-reviewed by the TACAS'25 artifact committee.) and **GitHub**.

2022 **FORKLIFT**
Büchi automata Ramsey-based language inclusion checker with antichain heuristics. Available on **Zenodo** (peer-reviewed by the CAV'22 artifact committee) and **GitHub**.

Participating developer

2014 **SLAM-Bot**, *under the supervision of J. M. Codol (IMT Alès)*
Simultaneous localization and mapping algorithm for a subaquatic environment. This is the prototype of a commercialized underwater GPS Software.

2013 **Automata Learner**, *under the supervision of F. Denis (LIS)*
Probabilistic automata spectral learner with randomized singular value decomposition of Hankel matrix, evaluated on PAutomaC challenges.

2013 **Led's Chat Program Series**, *under the supervision of P. Niebert (LIS)*
Pure parallel microcontrollers program. Parts of the MP2013 project (Marseille being the European Capital of Culture).

Teaching

Invited Lecturer (lecture only)

2024 **Introduction to verification**, *at STU*, one lecture, 20-25 undergraduate students
Awareness of system failure and introduction to computer-aided verification.

2024 – 2025 **Initiation to research**, *at STU*, one lecture, 20-25 undergraduate students
Reading technique to identify relevance, contribution, and limitation of scientific articles.

Teaching Instructor (lectures and exercises)

2023 **Foundation of Model Checking**, *at ISTA*, half-semester, 5 PhD students
New course introduced to ISTA graduate school.

Teaching Assistant (exercises only)

2017 – 2020 **Formal Verification**, *at ULB*, full-semester, 20-25 graduated students
Preparation and teaching of practicals. Management and grading personalized group projects of 3,4 or 5 students.

2018 – 2019 **Embedded systems**, *at ULB*, full-semester, 25-30 graduated students
Preparation and teaching of practicals on computers. Management and grading personalized group projects of 3,4 or 5 students.

2018 **Fundamental computer science**, *at ULB*, full-semester, 60-70 undergrads
Managing and grading a C++ project on SAT solver (MiniSAT).

Mentoring

2025 – now **Supervisor**, *at STU*, Samuel Klement
Preparation of the Master Thesis research subject and supervision.

2024 – 2025 **Supervisor**, *at STU*, Alexandra Reviláková
Preparation of the Master Thesis research subject and supervision.

2022 – now **Close collaboration**, *at ISTA*, N. Ege Saraç
Co-author, daily meetings, frequent visits at ISTA and invitations at STU.

2022 **Co-supervisor**, *at ISTA*, Pavol Kebis, (with T. A. Henzinger)
Preparation of the research internship subject and supervision.

PhD Thesis

Title: Contributions to formalisms for the specification and verification of quantitative properties

Supervisors: E. Filiot (ULB) and J.-F. Raskin (ULB)

Jury: E. Filiot (ULB), Thierry Massart (ULB), J.-F. Raskin (ULB), P.-A. Reynier (AMU), S. Sankaranarayanan (University Colorado Boulder USA)

Graduation: October 9th, 2020

Publications (alphabetical ordering of authors)

Articles invited in peer-review journals (4)

- T. A. Henzinger, P. Kebis, N. Mazzocchi, and N. E. Saraç. Quantitative Language Automata. Invited as special issue of CONCUR 2025 to Logical Methods in Computer Science (LMCS).
- T. A. Henzinger, N. Mazzocchi and N. E. Saraç. Safety and Liveness of Quantitative Properties and Automata. In the Logical Methods in Computer Science (LMCS), year 2025, volume 21, issue 2.
- E. Filiot, N. Mazzocchi and J.-F. Raskin. Pattern Logic for Automata with Outputs. In Journal of Foundations of Computer Science (IJFCS), year 2020, volume 31, pages 711–748.
- E. Filiot, N. Mazzocchi and J.-F. Raskin. Decidable Weighted Expressions with Presburger Combinators. In Journal of Computer and System Sciences (JCSS), year 2019, volume 106, pages 1–22.

Articles invited in conference proceedings (1)

- M. Chalupa, T. A. Henzinger, N. Mazzocchi, and N. E. Saraç. QuAK: Quantitative Automata Kit. In 12th International Symposium on Software Engineering Methodologies Leveraging Applications of Formal Methods, Verification and Validation (ISoLA'24) proceedings, year 2024, Lecture Notes in Computer Science (LNCS) volume 15222, pages 3–20.

Articles published in peer-review journals (1)

- I. Jecker, N. Mazzocchi and P. Wolf. Decomposing Permutation Automata. In the Journal of Computer and System Sciences (JCSS), year 2026, volume 156, pages 103721.

Articles published in conference proceedings (15)

Scientific Communications

Invited Seminars (11)

- i3S, France, 2025
- VUT Brno, Czech Republic, 2025
- ISTA, Austria, 2025
- Université Marie & Louis Pasteur, France, 2024
- UMONS, Belgium, 2024
- VUT Brno, Czech Republic, 2024
- STU Bratislava, Slovak Republic, 2023
- University of Liverpool, United Kingdom, 2023
- ISTA and TU Wien, Austria, 2021
- Colorado Boulder University (online due to the pandemic), USA, 2020
- ISTA, Austria, 2018

Invited talks in a scientific venue (1)

- N. Mazzocchi (based on a joint work with U. Boker, M. Chalupa, T. A. Henzinger, and N. E. Saraç). Safety and Liveness of Quantitative Properties and Automata. French working groups GT Vérif, Créteil, France.

Talks with scientific selection committee (15)

- N. Mazzocchi (based on a joint work with M. Chalupa, T. A. Henzinger, and N. E. Saraç). Automating the Analysis of Quantitative Automata with QuAK. At the 31st International Conference on Tools and Algorithms for the Construction and Analysis of Systems (TACAS'25), 2025, Hamilton, Canada.
- N. Mazzocchi (based on a joint work with U. Boker, M. Chalupa, T. A. Henzinger, and N. E. Saraç). Safety and Liveness but Quantitative. At 12th Highlights of Logic, Games, 2024, and Automata, Bordeaux, France.
- N. Mazzocchi (based on a joint work with T. A. Henzinger, and N. E. Saraç). Strategic Dominance: A New Preorder for Nondeterministic Processes. At 35th International Conference on Concurrency Theory (CONCUR'24), 2024, Calgary, Canada.

- N. Mazzocchi (based on a joint work with U. Boker, T. A. Henzinger, and N. E. Saraç). Safety and Liveness for Quantitative Automata. At 34th International Conference on Concurrency Theory (CONCUR'23), 2023, Antwerp, Belgium.
- N. Mazzocchi (based on a joint work with T. A. Henzinger, P. Kebis, and N. E. Saraç). Regular Methods for Operator Precedence Languages. At 50th International Colloquium on Automata, Languages, and Programming (ICALP'23), 2023, Paderborn, Germany.
- N. Mazzocchi (based on a joint work with T. A. Henzinger, and N. E. Saraç). Abstract Monitors for Quantitative Specifications. At 22nd International Conference on Runtime Verification (RV'22), 2022, Tbilisi, Georgia.
- N. Mazzocchi (based on a joint work with I. Jecker, and P. Wolf). Decomposing Permutation Automata. At 32nd International Conference on Concurrency Theory (CONCUR'21), 2021, Virtual Conference.
- N. Mazzocchi (based on a joint work with E. Filiot, J.-F. Raskin, S. Sankaranarayanan and A. Trivedi). Weighted Transducers for Robustness Verification. At 31st International Conference on Concurrency Theory (CONCUR'20), 2020, Virtual Conference.
- N. Mazzocchi (based on a joint work with E. Filiot, and S. Guha). Two-way Parikh Automata. At 39th IARCS Annual Conference on Foundations of Software Technology and Theoretical Computer Science (FSTTCS'19), 2019, Bombay, India.
- N. Mazzocchi (based on a joint work with E. Filiot, and S. Guha). Two-way Parikh automata: tool in transducer theory. At 7th Highlights of Logic, Games, and Automata, 2019, Warsaw, Poland.
- N. Mazzocchi (based on a joint work with E. Filiot, and J.-F. Raskin). Pattern Logic for Automata with Outputs. At 6th Highlights of Logic, Games, and Automata, 2018, Berlin, Germany.
- N. Mazzocchi (based on a joint work with E. Filiot, and J.-F. Raskin). Pattern Logic for Automata with Outputs. At 22nd International Conference on Developments in Language Theory (DLT'18) 2018, Tokyo, Japan.
- N. Mazzocchi (based on a joint work with E. Filiot, and J.-F. Raskin). Decidable Weighted Expressions with Presburger Combinators. At 2nd Winter School in Engineering and Computer Science, 2017, Jerusalem, Israel.
- N. Mazzocchi (based on a joint work with E. Filiot, and J.-F. Raskin). Decidable Weighted Expressions with Presburger Combinators. At 5th Highlights of Logic, Games, and Automata, 2017, London, United Kingdom.
- N. Mazzocchi (based on a joint work with E. Filiot, and J.-F. Raskin). Decidable Weighted Expressions with Presburger Combinators. At 21st International Symposium on Fundamentals of Computation Theory (FCT'17) 2017, Bordeaux, France.
